

CREDIT CARD PROCESSING SYSTEM

SOFTWARE REQUIREMENTS SPECIFICATION

7. Non-Functional Attributes

- Security
- Reliability
- Scalability

8. Schedule and Budget:

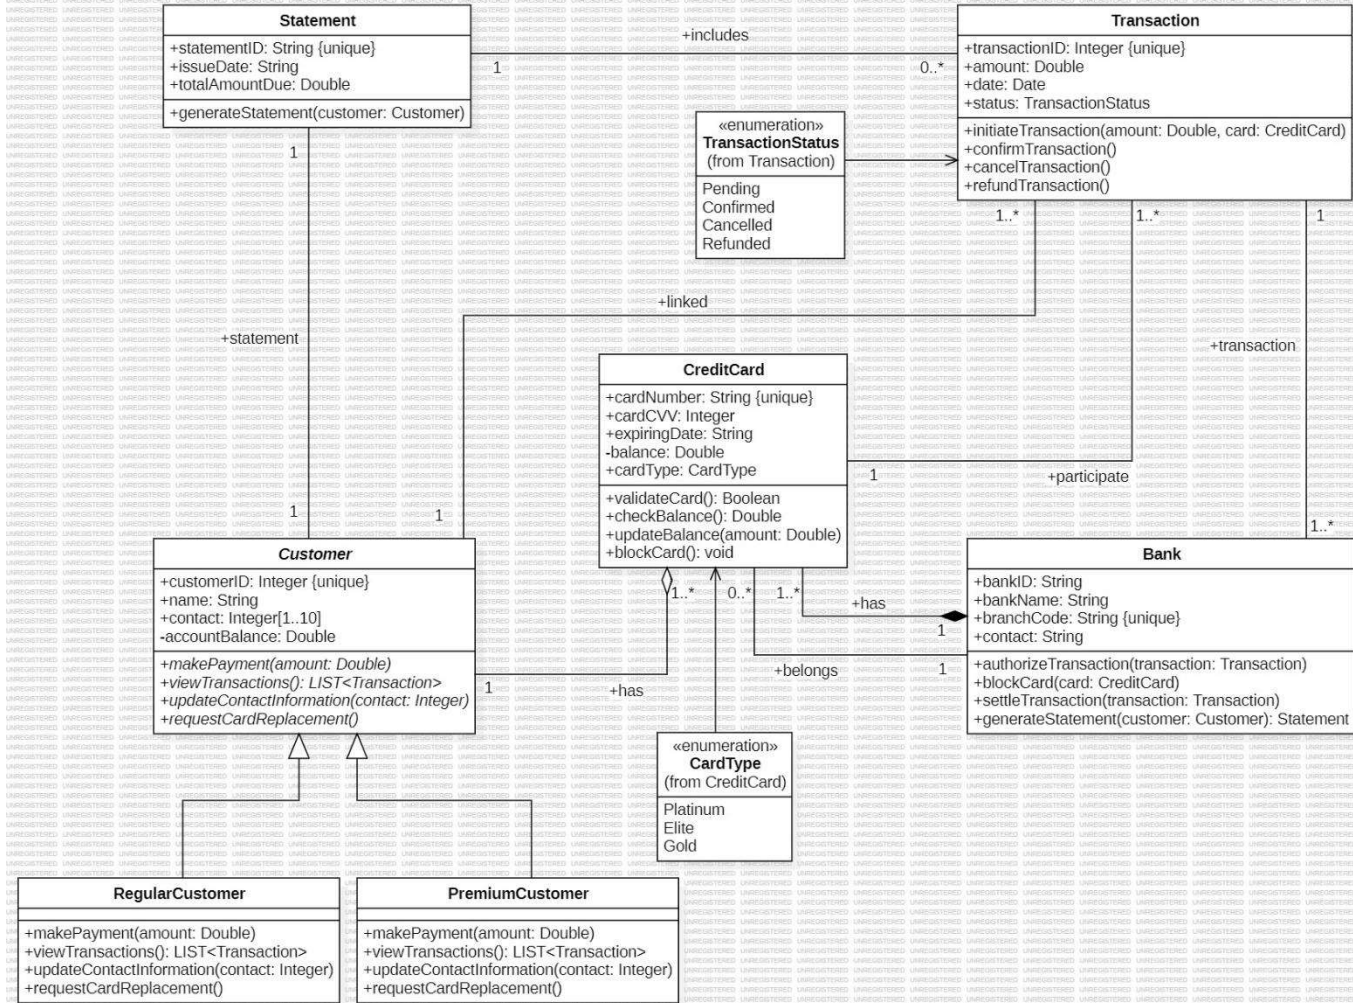

- 6 months for development and deployment.
- Budget: around some estimation for development testing and compliance.
- Requirement specification: \$15,000
- Design phase: \$25,000
- Development: \$80,000
- Testing phase: \$20,000
- Deployment and training: \$7,500
- Post deployment: \$2,500

So, a total estimate of around \$150,000.
